

JAZZ II

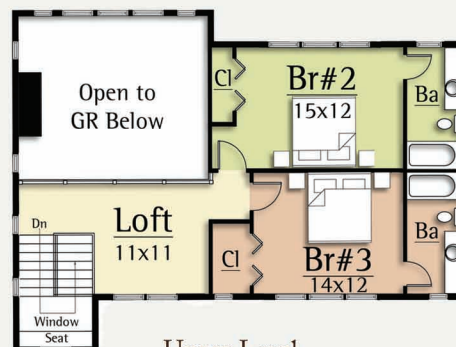

2,429 total square feet

As an original American art form, jazz has been an ongoing element in America's self identity. Its composition of playful notes, in ever changing arrangements, challenges us to venture into unexplored territory.

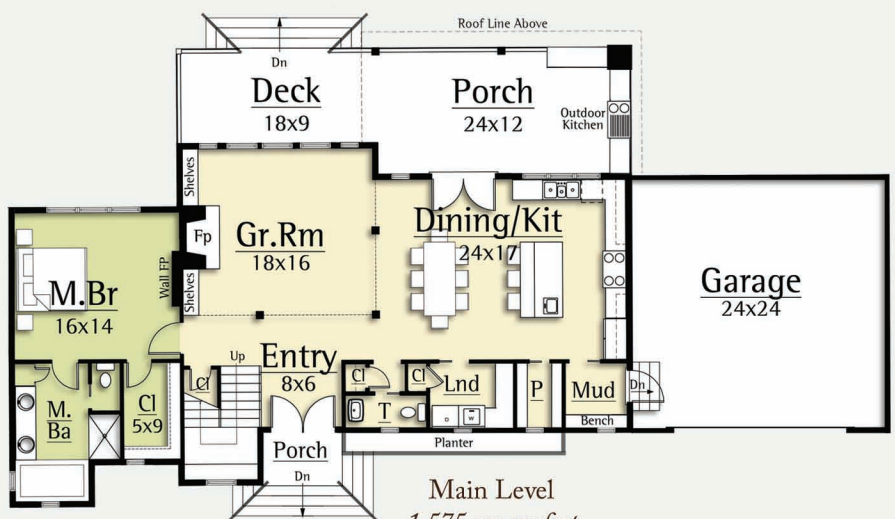

Today, the Jazz home design by MossCreek follows in it's namesake's footsteps. Challenging us to look at the composition of home design with artist eye.

The Jazz interior features a main level with spacious open living, master suite, and laundry/mud room areas. A gracious screened porch creates outdoor opportunities free from insects. On the upper level the Jazz provides two guest bedrooms and a loft that looks down to the great room below

On the exterior, the Jazz features unique blend of modern elements set in a new melodic arrangement.
